# Music Since 1900

## 6th Edition

*A chronology of music history from Jan. 1, 1900 to Dec. 14, 2000*

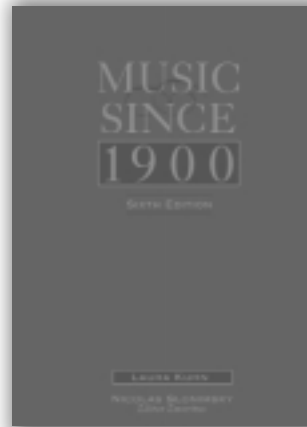

*"[O]ne of those rare works recognized as highly authoritative and essentially personal at the same time."*

— Booklist/Reference Books Bulletin (July 1996 on an earlier edition)

Through five editions *Music Since 1900* has documented the significant events in music history highlighting concerts, solo performances, operas, festivals, deaths, and music-related documents from Europe, North America and other parts of the world. From the debut of Arturo Toscanini, to the launch of the Voyager I space probe, an eclectic gathering of facts are expertly documented by the renowned musical lexicographer Nicolas Slonimsky. Nowhere else will readers find the unique insights of Slonimsky combined with a wealth of unusual and hard-to-find information reflecting the artistic and ideological currents that infused the music of the 20th century. An in-depth musical chronology, complemented by letters, manifestoes and other significant documents, offer readers many viewpoints from which to explore the music and historical context in which it was composed and performed. Now under the editorship of Laura Kuhn, this new edition brings the music of the 20th century to a close with coverage of the years 1992 - 2000. For music historians, educators, music librarians, performers and music lovers, *Music Since 1900* is as entertaining as it is informative.

*noteworthy personal events, professional highlights, and critical reception. ... Baker's® includes many names not easily found elsewhere ... [and] information not found in other sources. ... Larger public and academic libraries that own earlier editions will definitely want to acquire this centennial edition."*
